REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed invention provides for an apparatus for network access control. The apparatus receives a packet from a client requesting access to the apparatus. The apparatus registers and stores MAC address registration information from the device in pre-determined number of empty slots if there are empty slots available. The apparatus then changes all the remaining empty slots to closed after a predetermined amount of time so that the slot cannot be occupied by any other device.
2. The closest prior art of record is Lockridge which discloses a system configuring a network router. Lockridge discloses receiving a network packet with a MAC address of a client. The router then compares the address with a list of currently active MAC addresses in a list of slots, and if no conflict exists, the router stores the MAC address in the list. Lockridge does not provide for nor suggest providing for having a predetermined number of slots, and after a predetermined amount of time, closing the slots so they are not allowed to be occupied by any device.
3. For these reasons, in conjunction with the other limitations of the independent claims, puts this case in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to AFSHAWN TOWFIGHI whose telephone number is (571)270-7296. The examiner can normally be reached on Monday - Friday 8:00 A.M. to 5:00 P.M..
